

Job offer Technical Consultant (m / f / d)

Your tasks:

- You advise our customers (large German companies) in the analysis and processing of large amounts of data.
- You are involved in all important phases from the project conception to the roll-out of the individual solutions.
- You show our customers the best possible use of the latest technologies in the field of automated data exchange, IoT and Industry 4.0.

Your profile:

- You already have some experience with data analytics solutions.
- Through your reliable manner and your willingness to exchange experiences, you are a valuable technical contact for our customers.
- You show a strong service orientation and personal responsibility.
- You have very good knowledge of German, English is desirable.

We offer you:

- The opportunity for continuous education.
- A rapidly expanding market in which you can look after projects on your own responsibility.
- The chance to benefit from the know-how of an expert team that contributes to the customer's success with innovative solutions.
- A demanding task with a lot of freedom and responsibility in a company with well-known references.
- The chance to work with the latest technologies in the digitization environment.

- Fast and efficient training based on ISO9001: 2008 quality management.
- Teammates who take the exchange and mutual support for granted.
- A friendly working atmosphere with a kicker and electronic dartboard, which provides balance and fun in the office.
- Only 500 meters to the public transport (S-Bahn) or two kilometers to the highway.

We guarantee you to treat your application absolutely confidentially.
